ELSEVIER

Lipids and Lipid Metabolism

Vol. 1393, 1998

BIOCHIMICA ET BIOPHYSICA ACTA
BBA

Cumulative Contents

Information for Contributors vii

Review

The GM2 activator protein, its roles as a co-factor in GM2 hydrolysis and as a general glycolipid transport protein
D.J. Mahuran (Canada) 1

Regular papers

Cholesterol affects African swine fever virus infection
C. Bernardes, A. António, M.C. Pedroso de Lima and M.L. Valdeira (Portugal) 19

Stimulatory effects of lipoprotein(a) and low-density lipoprotein on human umbilical vein endothelial cell migration and proliferation are partially mediated by fibroblast growth factor-2
Y. Yano, M. Seishima, Y. Tokoro and A. Noma (Japan) 26

2,6-Dimethylheptanoyl-CoA is a specific substrate for long-chain acyl-CoA dehydrogenase (LCAD): evidence for a major role of LCAD in branched-chain fatty acid oxidation
R.J.A. Wanders, S. Denis, J.P.N. Ruiter, L. IJlst and G. Dacremont (Belgium, The Netherlands) 35

Effect of glutathione deficiency on the adipocyte *sn*-glycerol-3-phosphate acyltransferase
S.C. Jamdar, E. Soo and W.F. Cao (USA) 41

Characteristics of L-carnitine transport by lactating rat mammary tissue
D.B. Shennan, A. Grant, R.R. Ramsay, C. Burns and V.A. Zammit (UK) 49

Novel glycine containing glucolipids from the alkane using bacterium *Alcanivorax borkumensis*
W.-R. Abraham, H. Meyer and M. Yakimov (Germany) 57

Inhibition of cholesterol esterification by DuP 128 decreases hepatic apolipoprotein B secretion in vivo: effect of dietary fat and cholesterol
J.R. Burnett, L.J. Wilcox, D.E. Telford, S.J. Kleinstiver, P.H.R. Barrett and M.W. Huff (Canada, USA) 63

Molecular cloning of the bile salt-dependent lipase of ferret lactating mammary gland: an overview of functional residues
V. Sbarra, N. Bruneau, E. Mas, M. Hamosh, D. Lombardo and P. Hamosh (France, USA) 80

Activation of CTP:phosphocholine cytidylyltransferase by hypochlorite-oxidized phosphatidylcholines
A.E. Drobnies, E.A. Venczel and R.B. Cornell (Canada) 90

Recombinant locust apolipophorin III: characterization and NMR spectroscopy
P.M.M. Weers, J. Wang, D.J. Van der Horst, C.M. Kay, B.D. Sykes and R.O. Ryan (Canada, Netherlands) 99

Cloning of conserved genes from *Zymomonas mobilis* and *Bradyrhizobium japonicum* that function in the biosynthesis of hopanoid lipids
M. Perzl, I.G. Reipen, S. Schmitz, K. Poralla, H. Sahm, G.A. Sprenger and E.L. Kannenberg (Germany, USA) 108

Endogenous lipase activity in Caco-2 cells
J.H. Spalinger, E.G. Seidman, D. Ménard and E. Levy (Canada) 119

Characterization of triacylglycerol biosynthesis in subcellular fractions of an oleaginous fungus, *Mortierella ramanniana* var. *angulispora*
M.G. Pillai, M. Certik, T. Nakahara and Y. Kamisaka (Japan) 128

The native molecular size of alkyl-dihydroxyacetonephosphate synthase and dihydroxyacetonephosphate acyltransferase
J. Biermann, K. Schoonderwoerd, M.L. Hom, L.H. Luthjens and H. Van den Bosch (The Netherlands) 137

Use of deuterium oxide to measure de novo fatty acid synthesis in normal subjects consuming different dietary fatty acid composition
S.D. Konrad, S.L. Cook, Y.K. Goh, M.A. French and M.T. Clandinin (Canada) 143

Mechanism of action of probucol on cholesteryl ester transfer protein (CETP) mRNA in a Chinese hamster ovary cell line that had been stably transfected with a human CETP gene
J. Ou, K. Saku, S. Jimi, T. Ohta, B. Zhang, H.J. Pownall, Y. Shimada, Y. Tsujita and K. Arakawa (Japan, USA) 153

Novel diglycosyldiacylglycerol from the Gram-negative bacterium *Deleya marina*
H. Yagi and A. Maruyama (Japan) 161

Rapid report

Rat carnitine palmitoyltransferase Iβ mRNA splicing isoforms
G.-S. Yu, Y.-C. Lu and T. Gulick (USA) 166

Short sequence papers

Molecular cloning and characterization of a cDNA encoding mouse phospholipase C-β3
S. Wang, Y. Zhou, A. Lukinius, K. Öberg, B. Skogseid and A. Gobl (Sweden) 173

Molecular cloning of mouse choline kinase and choline/ethanolamine kinase: their sequence comparison to the respective rat homologs
C. Aoyama, K. Nakashima and K. Ishidate (Japan) 179

Subsection – Lipids in Signalling and Recognition

Regular papers

Cross-talk between β-adrenergic and metabotropic glutamate receptors in rat C6 glioma cells
M. Martín, J. Luis Albasanz, M. Fernández and Manuel Ros (Spain) 186

Increase in free linolenic and linoleic acids associated with phospholipase D-mediated hydrolysis of phospholipids in wounded castor bean leaves
S.B. Ryu and X. Wang (USA) 193

Reactive oxygen species enhances the induction of inducible nitric oxide synthase by sphingomyelinase in RAW264.7 cells
Y. Hatanaka, J. Fujii, T. Fukutomi, T. Watanabe, W. Che, Y. Sanada, Y. Igarashi and N. Taniguchi (Japan) 203

Agonist-stimulated glycerophospholipid acyl turnover in alveolar macrophages
N.V.C. Ralston, P.C. Schmid and H.H.O. Schmid (USA) 211

Corrigendum to 'Apolipoprotein-mediated cellular cholesterol efflux'
S. Yokoyama (Japan) 222

Information for Contributors vii

Regular papers

The role of dietary choline in the beneficial effects of lecithin on the secretion of biliary lipids in rats
M.-J. LeBlanc, V. Gavino, A. Pérea, I.M. Yousef, E. Lévy and B. Tuchweber (Canada) 223

An evaluation of the marmoset *Callithrix jacchus* (sagüi) as an experimental model for the dyslipoproteinemia of human *Schistosomiasis mansoni*
V.L.M. Lima, V.L.M. Sena, B. Stewart, J.S. Owen and P.J. Dolphin (Brazil, Canada, UK) 235

IL-13 increases the cPLA2 gene and protein expression and the mobilization of arachidonic acid during an inflammatory process in mouse peritoneal macrophages
A. Rey, C. M'Rini, P. Sozzani, Y. Lamboeuf, M. Beraud, D. Caput, P. Ferrara and B. Pipy (France) 244

Mechanisms that account for the selective release of arachidonic acid from intact cells by secretory phospholipase A_2
A.N. Fonteh, J.M. Samet, M. Surette, W. Reed and F.H. Chilton (USA) 253

A phospholipase A_2 is transiently synthesized during seed germination and localized to lipid bodies
C. May, R. Preisig-Müller, M. Höhne, P. Gnau and H. Kindl (Germany) 267

Selective uptake of cholesteryl esters from high-density lipoprotein-derived LpA-I and LpA-I:A-II particles by hepatic cells in culture
F. Rinninger, T. Kaiser, E. Windler, H. Greten, J.-C. Fruchart and G. Castro (France, Germany) 277

Manganese-stimulated phosphatidylinositol headgroup exchange in rat liver microsomes
R.F. Irvine (UK) 292

Methylene-interrupted double bond in polyunsaturated fatty acid is an essential structure for metabolism by the fatty acid chain elongation system of rat liver
T. Tanaka, T. Hattori, M. Kouchi, K. Hirano and K. Satouchi (Japan) 299

An intracellular role for pancreatic bile salt-dependent lipase: evidence for modification of lipid turnover in transfected CHO cells
J. Le Petit-Thevenin, N. Bruneau, O. Nobili, D. Lombardo and A. Vérine (France) 307

Homocysteine stimulates the production and secretion of cholesterol in hepatic cells
K. O, E.G. Lynn, Y.H. Chung, Y.L. Siow, R.Y.K. Man and P.C. Choy (Canada, China) 317

Enhancement of phospholipase D activity following baculovirus and adenovirus infection in Sf9 and COS-7 cells
A. Höer, T. Schöneberg, C. Harteneck, C. Cetindag and E. Oberdisse (Germany) 325

Catabolic fate of dietary trilinoleoylglycerol hydroperoxides in rat gastrointestines
K. Kanazawa and H. Ashida (Japan) 336

Dietary hydroperoxides of linoleic acid decompose to aldehydes in stomach before being absorbed into the body
K. Kanazawa and H. Ashida (Japan) 349
